100% Made in Italy

TOSH DIGITAL SINGLE-PASS UV INKJET TECHNOLOGY FOR DIRECT PRINTING ON SPORT SHOES

- Consumers expect unique and customized products.
- Manufacturers want more flexibility and efficiency in production process.

Tosh digital technology with JET.TO series combines these two goals, designed to develop new opportunities through customization.

Add value to your products, giving them greater appeal, **turn mass products to unique items.**

OPTIMIZED PROCESSES

It allows you to print any image with photo-realistic reproductions both process-color or black and white.

Moreover, it allows obtaining decorations also with **reliefs** or with **particular aesthetic effects** in order to satisfy the growing demand for products distinction.

Productions can vary from small series to massive quantities requiring no start-up time, canceling the set-up of a machine, optimizing production costs.

A valid alternative to the life cycle response of an ever-shorter product.

NEW FORMS OF DESIGN

Decorations give your products added value, freeing designer's creativity.

Tosh with JET.TO series (industrial ink jet UV single pass) opens the door to a whole world of design opportunities in sport shoes fashion industry.

Digital printing on finished footwear has been a challenge due to the very nature of materials at play (uppers, soles ...). Now, thanks to the JET.TO series and to the development of specific UV inks and to a dedicated process for these applications, Tosh offers companies **a digital solution that is incomparable to other methods adopted so far.**
